LUH ACADEMY

Tel: 541-271-2171 Ext 274

Academy Tour Schedule

The tour begins with coffee, tea, or juice.

Academy participants meet in the main conference room for coffee or juice with one of our medical providers, Ryan Fowler, hospital administrator and Lori Groves, chief finance officer. Participants are encouraged to ask questions or make suggestions at this time or at the end of the tour.

The next stop on the tour is the ambulance bay—where you will be invited into one of our fully-equipped ambulances for an up-close view of the equipment that is used to help stabilize patients on their way to the Emergency Room (ER).

Next stop is the ambulance bay.

ER and Acute Care

Once the ambulance crew is finished, you will be taken to the Emergency Department (ED) and Acute Care. In the ED you'll learn about sand. Trust me, this is important. In Acute Care you'll visit a patient room, learn about drug dispensing, and meet some of our caring staff.

During a short break, the surgery crew will discuss what they can do for you right here at home. Please feel free to ask questions.

Surgery

Radiology: The tour of Radiology is always a favorite. From X-rays to ultrasound pictures of developing babies; from nuclear medicine to CT; it's amazing what can be done in this small facility.

Lab manager, Mike Lenington will show you the equipment that tells your medical provider how many hamburgers you've eaten.

Laboratory

Physical Therapy, Occupational Therapy, and Speech Therapy: One of our physical therapists will show you the equipment they use to help patients recover from surgery, strokes, or injuries. They encourage you to work hard—but, they're also a lot of fun!

During lunch you will have another opportunity to ask questions and make suggestions. Representatives from the Auxiliary and Foundation will be on hand to talk about their groups.

Lunch— Graduation!
