Oregon Death Data

Updated November 13, 2020

Oregon State law requires a report of death to be completed for all deaths. These records are the primary data source for the health information presented here

Final Death Data

- Final mortality data (/oha/PH/BirthDeathCertificates/VitalStatistics/annualreports/Volume2/Pages/index.aspx) are presented yearly in Volume 2 of our annual reports.
- Death by Age of Decedent, Residence County, and ZIP Code (/oha/PH/BirthDeathCertificates/VitalStatistics/death/acntyzip/Pages/acntyzip.aspx) (3 year aggregates, updated 12/2018)

Weekly Deaths and Place of Death Dashboard

- View our dashboards (<https://public.tableau.com/profile/oha.center.for.health.statistics#%21/>) for weekly comparisons of 2020 mortality to historical averages. Deaths from COVID-19 are also included.

About Death Data

The Center for Health Statistics registers only those vital events occurring in Oregon. However, information on Oregon resident deaths occurring out-of-state to is also collected through an interstate exchange agreement. Data may be tabulated by residence (where the person lived) or by occurrence (where the event occurred).

Please read about Oregon Preliminary Data (/oha/PH/BirthDeathCertificates/VitalStatistics/Pages/aboutabd.aspx) before using year-to-date and preliminary statistics.

Year-to-date, Preliminary, and Final Death Data Tables

The following tables provide the most current statistics on deaths in Oregon. All documents are in Adobe PDF format.
