

STARTING
Wed, Feb 24th
LUHD COVID-19
Vaccine Call Center
541-271- 2175
Hours
Monday - Friday
9 am - 4 pm

The LUHD Team has been working diligently to provide our community with a call center where eligible residents can call to obtain COVID-19 vaccine information. The Call Center staff will contact eligible community members to invite them to upcoming vaccine clinics. COVID vaccine clinics are scheduled upon incremental distribution of vaccine to LUHD and at which time registration to our community is by invitation.

We ask that only vaccine eligible residents call the center. We are following CDC and Oregon Health Authority guidelines on phase distribution while receiving guidance from Douglas County Public Health. The Call Center staff will need your full name, date of birth, and phone number to pre-register you.

While state and national news communicate a specific age grouping is now eligible for vaccination, the prior age groups may still be receiving their initial dose due to incremental vaccine distribution. The graphic below provides a view of the current vaccination status in our community. The green represents those who have been vaccinated, yellow represents the current group we are working with and the orange represents the groups which are eligible. It will be updated on a regular basis as we progress through the vaccination process. Please be patient as we work through our eligible groups.

In addition, we are also distributing second doses to groups who have already received their first dose. Second doses can be given within 28 to 42 days from when the original dose was given. Therefore, depending on available vaccine, your second dose might not be at exactly 28 days. We will contact eligible individuals to schedule their second vaccine.

COVID-19 Vaccination Status

Groups already vaccinated

Phase 1-A,
 Groups 1 - 4

Phase 1-B, Group 1

All healthcare facilities, providers and workers; first responders, EMS, skilled, long term and memory care facilities, correctional facility workers, tribal health programs, VA workers and qualifying Veterans, caregivers of medically fragile individuals who live at home, age-eligible individuals with a medical condition or disability who receive services in their homes.
