

COVID-19 VACCINE UPDATE

April 2, 2021

Dr. Audrey and Dr. Greg Shank share importance of COVID vaccine:

Dr. Audrey Shank, family medicine physician at the LUH Same Day Clinic and Dr. Greg Shank, general surgeon at Reedsport Medical Clinic have traveled the world helping with medical missions. They received the COVID-19 vaccine in January 2021 and share their reasons why they encourage you to get it as well.

"We are excited to get it (vaccine). We have worked overseas and have seen a lot of the diseases for which we are vaccinated against here in the U.S. We want to avoid those diseases and now we want to avoid COVID," shared Dr. Greg.

"I have been in New York and have seen what COVID has done to people. We want to avoid getting to that point here. This is the first step. It is very important. The vaccine, it's a safe vaccine for which they have been working on it (the base for it) for a lot longer than COVID has been around," explained Dr. Audrey.

Drs. Shank gave us permission to capture photos and video of their vaccination process and provided us with a message on why it was important for them to be vaccinated. You can view the video on the LUH YouTube channel or copy and paste this link to your web browser: https://www.youtube.com/watch?v=BPSjC_QD-rc.
