LOWER UMPQUA HOSPITAL FOUNDATION

THANK YOU!

Dear Community,

We extend our heartfelt gratitude for your incredible support in our efforts to bring 3D mammography to LUHD. Thanks to your generosity and commitment, the district successfully acquired this vital technology in March 2025. Together, we are making strides toward a healthier future for our community.

*The **3rd Annual Putt for Pink Golf Charity Scramble** is on **August 9, 2025** at Reedsport Golf Course. Hosted by the Lower Umpqua Hospital Foundation, this year we are fundraising for a **DEXA scanner**, also known as a bone density scanner. A DEXA scan is primarily used to diagnose and monitor osteoporosis and assess the risk of fractures.*

According to the CDC, nearly 1 in 5 women and 1 in 20 men over the age of 50 are affected by osteoporosis increasing the risk for broken bones and having serious health implications in older adults. Screening for osteoporosis is recommended for women who are 65 years and older.

Help us improve the health and well-being of our community by keeping Lower Umpqua Hospital District at the forefront of medical advancements and technologies. Your support will help ensure patient access to critical preventative care resources.

The Lower Umpqua Hospital Foundation invites you and your family back to the greens August 9, 2025!
