Pelvic Floor Therapy

Rehabilitation Services

Lower Umpqua Hospital District

Pelvic Floor Therapy

What is Pelvic Floor Therapy?

Our Physical Therapy Department is excited to announce they are now seeing patients for pelvic floor rehabilitation.

Pelvic floor physical therapy involves the pelvic floor muscles that support the pelvic organs, assists in bowel and bladder control, and contributes to sexual arousal and orgasm.

Pelvic floor therapy is for everyBODY - we all have a pelvic floor!

Treatment

What can Pelvic Floor Therapy help treat?

- Bladder incontinence
- Bowel incontinence
